

錦鯉 - Nishikigoi

Nishikigoi or Koi Carp : the legendary carp that became a dragon

Courage, virility, longevity and affection.

The Nishikigoi, better known as Carp Koi, is considered a species capable of embodying all these characteristics.

But it doesn't end there, because one of the most symbolic legends of Chinese and Japanese cultures revolves around the Koi.

Not surprisingly, it is said that once a very brave carp went up the entire course of the yellow river and even managed to cross the famous Dragon Gate waterfall.

The deities, impressed by so much perseverance, rewarded her by transforming her into a dragon, also granting her the gift of immortality.

In addition to its elegance and strongly evocative element, the Koi Carp is often used, in Eastern culture, as an example of stubbornness, testifying to the fact that any goal can be achieved if there is a strong will.

Materials :

Sterling Silver 925 and Lapislazuli.

Manufacture: Handmade painted in Italy

Measures : Length 14,00 cm/ inch 5.51- Diameter 1,6 cm/ inch 0.63

Roller Ball Charging System: Refill Schmidt ink gel

Fountain pen : converter or cartridges

Limited Edition: 25 Roller Ball and 25 Fountain pen
